3	I lack confidence in the medical care provided at the Strawberry Wilderness Clinic. It is difficult to get appointments, the caliber of care provided by the doctors NPs, PAs and staff is sub-par. I've had poor experiences multiple times in the past at the clinic and unless care standards improve drastically I will not seek medical care at the clinic. I go to Bend for care even though I would prefer not to travel and would like to be able to receive quality care in Grant County. I do think the physical therapy department has some great therapists. Also, the x-ray, imaging department does a good job.	5/14/2022 7:33 PM

9	More programs will not necessarily cure the ills or problems of society, but may encourage more dependency on expensive treatment and medications. I chose not to use much medical assistance that often treats symptoms (and sometimes with severe side effects), but doesn't cure. Treat everyone the way you would like to be treated. They are there for a reason.	4/29/2022 10:32 AM

Coming from a big city to a smaller town has truly helped me get a doctor who has time to actually care about my illnesses and get me on a track to better my own life. Unfortunately living with Lupus I will forever have it, but there are small things I can do to help improve my quality of life and I would have never known if I didnt move here and come to this clinic. Thank you.	4/15/2022 9:57 AM
28	Derek, stop being greedy!! You have lots of amazing employees, that are good at their job and also love the small town we live in but they want to leave because you don't pay them enough. If you paid them enough they wouldn't be leaving and you wouldn't be paying astronomical amounts of money to travel techs to come in for a few months to cover that position. Listen to the employees! 35	Grant county is overall a quiet safe healthy place to live at. Thankyou to BMH and all it's staff.	4/12/2022 4:39 PM
36	I don't use very many services and I live out of town, so I don't really have much to say.	4/12/2022 4:34 PM
37	Public confidence in local providers remains an issue because of the specific instances where medical mistakes threaten lives.	4/12/2022 9:11 AM
38	People need a podiatrist here. Also need a long term home care agency, not just short term home health. People need accessible transportation to their medical appointments	4/12/2022 8:21 AM
39	My husband and I are not involved in the Community much any more. We belong to the LongCreek Community Church. We mostly stay home.	4/11/2022 8:48 PM

41	BMH should have join the St. Charles group back in 2000 when Madras, Redmond and Prineville did. They turned those hospitals into first class hospitals. BMH is just a simple county hospital. So sad.	4/11/2022 6:56 PM
42	Thank you for serving our community	4/11/2022 5:42 PM
43	We don't have enough school systems for children. School systems should be only teaching reading, writing, the correct history and math. Non of this stuff about black lives matters or what gender they should be not there place to say anything about ever!! We need another school to open, we need a daycare at our hospital for working parents, childcare around here is incredilby hard to find! Trying to get an appointment with our Clinic is horrible half the time you can't get into see your primary care provider they are usually booked out for at least 2 months. Blue Mountain Hospital does not care for its employees only how much money it makes. Keeping their employees happy is not a concern for them at all. IF they cared at all about its employees then they would be listening to us when we came to them with a problem. The problems to not get fixed they are pushed under a rug and left to be never looked at again. IT's employees are underpaid for the amount of time we spend caring for patients plus the added paperwork and additional things we put time and effort into this place, insurence is crap. We are over worked and under paided	4/11/2022 2:18 PM
44	Your staff (all departments, not just admin) deserve raises after dealing with all the covid-19 restrictions.	4/11/2022 6:24 AM
45	Offer more extensive OB Dept.	4/10/2022 7:31 PM
46	I think that the er care needs to be upgraded and all the diagnostic equipment needs to be replaced because it breaks down too often. I had to wait weeks before I could get surgery done on my broken ankle because I had to go out of town for it, so it had to be rebroken before it could be repaired and now it's permanently deformed.	4/10/2022 7:20 PM
47	no	4/10/2022 12:55 PM
48	You need an immediate care clinic. For when you can't get an appointment. So you don't have to go to the ER. This would make a world of difference,	4/10/2022 9:23 AM

53	We need more help for pain management. Just because someone takes opioids for chronic pain does NOT mean they are a drug abuser!	4/9/2022 8:08 PM
54	The number of life fights out of here is ridiculous and shows a general lack of abilities and/or faculties at the hospital. This leads to an overwhelming feeling that the level of care is below subpar abs to be avoided at all cost	4/9/2022 4:06 PM
55	When I search Grant County for mental health care, I cannot find anything! None listed on the website, neither at BM Hospital nor at the health department.	4/9/2022 3:38 PM
56	Communication reviews on experience at the hospital support groups	4/9/2022 3:11 PM
57	Having a child at the hospital is actually pretty scary since there is limited emergency care for newborns and mothers have to be life flighted out. Changing this would be better since I know moms that leave town to have their children.	4/9/2022 3:08 PM
58	None	4/9/2022 2:54 PM
59	More services for special needs children within the community would be helpful	4/9/2022 2:48 PM
60	I think you fo a great job. I would like to see you have enough drs that when I call to get an appt with my dr, i am not passed off yo a np.	4/9/2022 11:59 AM
61	We have a hospital here that I feel that can do better I have had horrible care and someone great care. They don't take u seriously and they act like they don't want to be there..... In less then two years. I have felt they come in ask u questions and look at you like your stupid and tell the nurse what to do and leave. My mom passed in dec and the Dr just pushed us out to bend. She didn't really seemed to care	4/9/2022 11:42 AM
62	Get big Pharma out of mental health care a more healthy way is using the proper nutrition, vitamins, minerals, herbs etc , plus the right amount of exercise, diet and sleep	4/8/2022 8:26 PM
63	Visited the ER this winter and was very impressed. Have also heard many good remarks about the PT department.	4/8/2022 8:23 PM
64	I have a good relationship with my primary care physicians.	4/8/2022 7:50 PM
65	The drs need better education I know of people sent home with high blood preasure.People don't get the care they need.They can't tell what a blood clot is.	4/8/2022 5:38 PM

67	As a retired RN, I would like to see the healthcare system stop playing politics regarding covid and balance the attention to ALL health care needs. It is time to get off the covid narrative train and start focusing on the issues you have in your survey which have taken a back seat for far too long and has exacerbated these health issues because of it. People are suffering needlessly and the healthcare system holds direct responsibility in this.	4/8/2022 4:02 PM
68	Quality of doctors needs work. Pay them good wages so they will stay here. It's so isolated for people with families.	4/8/2022 12:46 PM
69	I think Grant County is doing a pretty good job with the health care system. I have a small problem connecting with people at the clinic concerning my husband's care for congestive heart failure. It seems like they don't take it as a priority.	4/8/2022 12:10 PM
70	There seems to be a problem will communication at the hospital and clinic. We often do not get information back from the clinic in a timely manner, and out of the area doctors seem to have some difficulty getting needed information from the clinic or hospital. Information (orders for testing,etc. seem to be "lost" often.	4/8/2022 10:58 AM

There needs to be more training, quite pathetic that we have someone that doesn't know how to apply an ekg. There's also things in my record that does not apply to me. More training and better staff is NEEDED.	4/8/2022 5:08 AM

75	My step children(adults) have had a heck of a time finding a place to live. It finally came about but they coach surged and lived in some horrible situations. We help them as they allow us. I wondered where the services for people like them are	4/7/2022 10:06 PM

77	Referral times are long! Waiting for insurance to approval!	4/7/2022 6:59 PM
78	The hospital district is sending huge amounts of money out of the community by paying travelers instead of increasing wages and staffing to a level that makes employee retention possible. This is a huge net loss to out whole county.	4/7/2022 3:37 PM
79	Grant County has the most dedicated Volunteer EMS Staff that I have seen and I have lived all over the United States. they deserve to be recognized more than they are.	4/7/2022 2:12 PM
80	Thank you for doing this!	4/7/2022 12:14 PM
81	None at this time.	4/7/2022 11:35 AM
82	#33 - I have no idea how you did or the status of these projects.	4/7/2022 9:39 AM
83	Have a follow up/survey after one enters the hospital for any reason. Again add on to the ER/ED entry as my elderly parent had to be in the cold as multiple people determined if they had covid. She needed a wheel chair, but the multiple people were more concerned about getting the covid questions answered instead of making the upset/nervous patient more at ease and comfortable. She was not doing well at all. I was not please with the level of care provided. There were no tests done to help put the patient at ease. She went in for a potential blood clot - nothing to fool around with no matter who the patient is or how old they are. The person was not priority, but it seemed as though the \$ was.	4/6/2022 10:23 PM
84	This is a good survey. Thanks for getting it out in the community.	4/6/2022 3:18 PM
